Margaret Kay Memorial Scholarship

This scholarship may be given annually to a fellow Canadian hobby genealogist. You may solve your brick wall by taking a course and learning where to look for your answer! GP AGS wants to help a deserving researcher. Please consult our website for application and further information.

Editor's Notes

Judy Bradley AGS #2688

Summer has arrived in the Grande Prairie region of Alberta. The seeds have sprouted and the little plants are struggling to grow despite our abundance of rain.

I hope each one of you "grows on" your family tree this summer. Perhaps you will visit an overgrown graveyard or cuddle a brand new family member?

Maybe you will go to an archive and see century old documents about your ancestors, or maybe attending a family reunion is in your plans? Whatever your plans for genealogy, I hope you can give back to the world of genealogy be it indexing via familysearch or perhaps you will have the time to help out at Heritage Day at the Museum or Archives.

I hope to begin to get organized this summer! I have been promising to do this for quite some time, and after hearing Pat Ryan speak at our conference in April, I hope to re-organize our Grandma's line over this summer. The method Pat has found to work well she credits Mary Hill and FamilyRoots Organizer System. This method is found at <http://familyrootsorganizer.com/>. If you do not have a computer, you can contact me for instructions in this method of organization.

This issue of HS has an interesting article written by Bill Lappenbush. This article is a tribute to his great great grandmother. He reminds us that we must do some digging to find out about the lives of the women in our genealogy. Joan Bowman once again adds to our Grande Prairie history with her usual column "Old Newspapers".

I hope you all have a very good summer.

Enjoy!

Judy
